

In the claims:

Please cancel claims 1-27 and claims 42-46, without disclaimer or prejudice. The following list of claims replaces all other lists of claims.

Claims 1-27 (canceled)

28. (original) A tabletop game, comprising:  
  
a playing surface;  
  
at least one representative player residing above the playing surface; and  
  
at least one player light source illuminating at least a portion of the at least one representative player.
29. (original) The tabletop game according to claim 28, further comprising:  
  
means for supplying power to the at least one player light source.
30. (original) The tabletop game according to claim 29, wherein the means for supplying power includes at least one battery in the at least one representative player.
31. (original) The tabletop game according to claim 29, wherein the means for supplying power includes at least one power feed.
32. (original) The tabletop game according to claim 31, wherein the at least one power feed resides in at least one cross bar arranged to hold the at least one representative player above the playing surface.
33. (original) The tabletop game according to claim 31, wherein the at least one power feed resides in at least one player track arranged to guide the at least one representative player on the playing surface.
34. (original) The tabletop game according to claim 28, wherein at least one portion of the playing surface is capable of passing light.
35. (original) The tabletop game according to claim 34, wherein the at least one portion of the playing surface is translucent or transparent.

36. (original) The tabletop game according to claim 34, further comprising at least one playing surface light source arranged such that light is viewable from above the playing surface through the at least one portion of the playing surface.

37. (original) The tabletop game according to claim 36, wherein the at least one playing surface light source is arranged below the playing surface.

38. (original) The tabletop game according to claim 36, wherein the at least one playing surface light source is arranged in the same plane as the playing surface.

40. (original) The tabletop game according to claim 34, further comprising:  
a reflective surface below the playing surface.

41. (original) The tabletop game according to claim 34, further comprising a reflective coating on a bottom of the playing surface.

Claims 42-46 (Canceled).
